Proposal: EXPP: PROTECTED STRUCTURE: The works for the construction of the extension to the Junior School, planning application no. 3361/19 have progressed on site. The existing extension has been demolished and the preparation for underpinning of the granite boundary wall with the mews lane to Ailesbury required to enable the development had commenced. During the works there has been a partial collapse of a section of the boundary wall. The remaining immediate wall has been temporarily restrained but in our professional opinion it is now unsafe to complete the underpinning to the wall required for the safe retention of the wall. The proposed works that form this application include the demolition of the remaining boundary wall and the reconstruction of the wall.
