**Proposal:** EXPP: PROTECTED STRUCTURE: The following works are proposed to be carried out to the property at basement level only both internally and externally:  
Externally at Basement Level (Front External Entrance):

- Cleaning down of the front elevation at basement level only. Cleaning will consist of use of warm water and a soft bristle brush only.
- Cleaning down of the existing flagstone paving at basement level only. Cleaning will consist of use of warm water and a soft bristle brush only to remove any moss growth to prevent slips, trips or falls.
- Removal of all vegetation growth to the existing flagstone paving. This will include allowance for hacking out existing pointing to enable and ensure that all roots are removed. Upon removal, all areas to be carefully re-pointed with a lime based mortar. Profile and colour to match existing.
- Removal of the existing modern security railings to the two front windows at basement level. Railings are a modern installation. New security railings shall be installed to the windows which are similar in profile to the existing railings on the rear of the property. Railings to be sympathetic to the elevation. All previous fixing holes shall be filled. Materials and colour to match existing.
- Removal of the existing modern security gate to the entrance door at basement level. The security gate is a modern installation. A new security gate shall be installed to the door which is sympathetic to the elevation. All previous fixing holes shall be filled. Materials and colour to match existing.
- Cleaning down of the railings to the front elevation and handrail to the stairs to the basement level entrance. Cleaning will consist of use of warm water and a soft bristle brush only. Remove loose and defective sections of paintwork to the railings, shot blast sections were necessary, prime and redecorate.
- Redecoration of the rendered walls at basement level only with suitable external paint to match existing.
- The replacement of the existing modern entrance door to the basement level. The existing door is significantly decayed and not operating efficiently. A new painted solid timber panel door shall be installed to allow safe entrance to the basement level. The new door shall be consistent with similar doors used in the Merrion Square locality at basement level.
- The replacement of the existing modern timber exit door to the rear yard at basement level. The existing door is significantly damaged and not operating efficiently. A new painted timber solid

---

security door shall be installed at basement level to the rear.

- All windows at basement level to be decorated with no. coats of good quality paint (white).

Internal at Basement Level Only: The following is a list of indicative works to be carried out to the building internally at basement level only. The proposed renovation/redecoration works are confined to the basement level of the SCSi HQ building.

The renovation works largely consist of:

- Redecoration works including paint to the ceiling, walls and joinery.
- Installation of wall and floor tiles to the sanitary facilities.
- Renewal of existing modern doors with new doors.
- Modification of the existing modern wall panelling.
- Installation of a floor levelling compound to ensure level floors are provided throughout.
- Installation of floor finishes.
- Installation of acoustic materials to one room.
- Installation of new full height walls with glazing to provide a separate computer-hub space within the main open plan area.
- Installation of electrical fittings, audio visual fittings and lighting.
- Renewal of sanitaryware.
- Installation of new fire alarm and emergency lighting to the basement level to be interconnected with the existing system. All cabling/trunking to be surface mounted.

This work will not impact on historic fabric or result in the loss of historic features, fittings or fabric - thus the works would not have a negative impact on the character or significance of the protected structure.
